Here we are again, fans of the fantastically large monsters. Good thing we broadcast this show ourselves because we've been so busy...trying to stay alive! We were on the precipice of a black hole. It got pretty dicey there for awhile but Gamera saved us. Hooray!

However, as a result all the clocks in the cockpit and watches in the washrooms are showing different times than the time pieces in the tomb of Tigella! We might be caught in a chronic hysteresis for all we know.

Regardless, if we are going around in circles or making minute progress, we are back in the studios full time now. We have a lot of great new things bouncing around the solidifier ready to jump into your hands!

Now, about the show; well as always it is rampant with groovy greats complete with some nifty extras that will make you cackle. We had fun putting this show together because we got to include the *Killer Tomatoes* theme song! It's been so long since we've seen any of those films and we can't wait for the movies to be delivered. Does Amazon deliver in orbit?

Until then **ENJOY THE SHOW** but watch out for the insects...excuse I meant INZECTS!
